Few Words

Today, the whole world is in the grip of covid-19 epidemic which has baffled the economy path of both the nation and the world. In such a time as this, a country like India needs to be extremely vigilant. It is out in the open that the Indian economy is signaling the whole world. In moments like these, when climate change is having it's own different mood, a nation like India demands a skilled manager.

Our magazine "Times of Agriculture" includes published articles by experts of varied disciplines in the context of various contemporary situations as well as conditions pertaining to agriculture, the benefit of which will be received by everyone. Articles on diverse affairs allied to agriculture work of the country and the world will be published in this magazine to be utilized by agricultural students, agricultural scientists and farmer brothers. In the successful running of this magazine, the cooperation and assistance of senior agricultural scientists of the state and the country has been received and successful endeavors shall be taken unabated with the intention that their experiences and ideas may reach to you through publication in this magazine.

I believe that the magazine "Times of Agriculture" will bring a new revolution in the agriculture text of various latest and scientific activities of agriculture through it's active members. From time to time, success stories of various progressive farmers of the country will also be published in this magazine, so that we may continue to obtain different kinds of experiences.
